

I am Athena Broadhead, I am a loving and caring person. My friends and my family are my inspiration. They motivate and educate me, I learn new lessons every day from them. My mom is my best friend, she was with me through the tough and the wonderful times. I love her so much and she has my heart forever. I have an interest in animals, sometimes I think that I'm an animal whisper. I enjoy singing, acting, and dancing, it allows me to express my emotions in a positive way. I also love having fun outside and creating jewelry. I like to travel around the world because I love to experience new cultures and different food.

I want to be in show business because it's very entertaining for me and fun. Not only is it fun for me, it also gives me a space to do something I love without feeling judged. Ever since I was a little girl, I was passionate about becoming a star. With hard work and dedication, I know I can become someone who works as an actress/dancer etc. If I just keep working and stay focused I can and I will. I also want to do this because it can put my dramatic ways to good use. I know I have a long journey towards my dreams and it won't be easy. I'll take one step at a time, I'll break down walls and obstacles in my way. I know when I audition there will be times where I don't get the role, but I am determined to succeed, I will take every opportunity to show the world the entertaining business was meant for me.
