

Cover letter

My name is Annamria Fejes, I was born in Hungary and I live here. I've been performing since I was in kindergarten, going to poetry and story-telling competitions. I started modeling almost a year ago.

What really defines me is to be the best in this journey I've embarked on, in the world of modeling and the entertainment industry. My hobby is horse riding, I have my own horse.

It is important to me that I can work on new challenges. I can work with professionals who are the most respected representatives of their profession.

A new project or even a new country: I always have the opportunity to develop my professional knowledge. A special community with special people, where everyone cares about success.
