COVER LETTER

I have always loved performing arts and and excited to pursue my dreams of working in the entertainment industry. From a young age I have always loved performing - I have been dancing since I was 3 years old! Since then I have modeled and been a part of numerous photoshoots, which I have loved!

I bring enthusiasm, work ethic, and creativity and look forward to shining in my next role. I am continually inspired by so many people in the performing arts and entertainment industry and hope to inspire those I work with, on and off set.
