COVER LETTER

I have always loved fashion, styling, and dance from an early age - I began modeling at age 2 and was invited to walk in Phillip Plein NYFW Show at age 5 - styled and casted by Carine Roitfeld. Our set-life and photoshoots have become my favorite place where I could express myself creatively and collaborate with other artists and individuals.

The performing arts has always been a passion of mine with my dance journey showing me that the stage is 'my home'. I absolutely loved my first creative film directed and filmed by Rushka Bergman and I can not wait to extend further into the entertainment industry where I will bring kindness, determination and hard work to all aspects of my role. I can't wait to put my heart into what comes next and have the opportunity to continue to shine!
