

PAISLEE VIRGA

To whom it may concern,

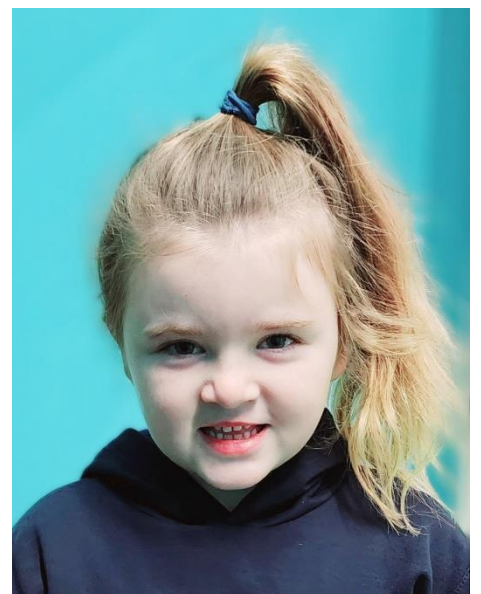

Paislee Virga wishes to obtain a job as an actress in television shows and commercials.

She asked me (her mother) so many times to figure out how to get her a job acting, that I finally signed her up for an audition with Talent Auditions. She made it through all callbacks and has since made it through all callbacks for the iPOP audition, and all callbacks during auditions for WHO Management. These have been her only auditions to date other than some non-speaking roles she has had on local television. Paislee has been told that she takes direction very well, doesn't "over act" and would be great for television, commercials, and commercial print.

Paislee Virga is a vibrant personality with natural talent. She loves to have fun and be silly, and she recently has loved to work on scripts and work towards auditions. You won't be disappointed if you give Paislee a shot!

*Sincerely,
Paislee*

PAISLEE VIRGA
