

## Cover Letter

There are many reasons why I want to act. I want to act because I want to be in film movies and shows with all of the exciting equipment. I just recently watched Percy Jackson's "A Heroes Journey" on Disney Plus. I like the part where he was connected to a rope and dangling from the Lewis Gateway Arch. I would love to do something like that in a movie. And overall, it would be thrilling to just be in a movie.

Another reason why I want to act is because I would like to be famous and know how to speak clearly in public with confidence. Already I like to be in front of people to perform. I played my guitar for church during a Christmas service, and I present many speeches in my speech class. I find that I can better talk to people in public and I think it's because of the recent Zoom classes I took with my trainers.
